

December 14, 1964

Dr. Ursula M. Cowgill
Osborne Memorial Laboratory
Yale University
New Haven, Connecticut

Dear Dr. Cowgill:

May I say I was interested to see your note on season of birth in Porto Rico (P.N.A.S. 11/64), and that I share your outlook on the statistics. May I ask for a reprint?

You may be interested in the enclosed memo which I have not yet quite gotten around to writing up for publication. We are pursuing the subject to some extent with the 1960 Population Census.

My regards to Professor Hutchinson.

Sincerely yours,

Joshua Lederberg
Professor of Genetics

Enclosure: Demographic Studies

Bcc: Professor G. E. Hutchinson

U. COWGILL
